

Invent To Learn Masterclasses

Hands-on STEM/STEAM
with Learning-by-Making “Master,” Dr. Gary Stager

This special workshop series is a collaboration between Education Technology Specialists and Constructing Modern Knowledge, LLC.

The co-author of “the bible of the maker movement in schools,” 1:1 computing pioneer, and popular speaker, Gary Stager, returns to Australia for a series of exciting hands-on workshops costing less than half of copycat events. Learn to learn and teach with Hummingbird robotics, littleBits, Scratch, Snap!, Turtle Art, wearable electronics, digital paper craft, programmable toys, and other exciting new materials in a project-based context.

- **Townsville - 25/26 May (2-day workshop)**
- **Sydney (primary focus) - 1 June**
- **Sydney (secondary focus) - 2 June**

Email gary@stager.org for school-based PD
